

INTRODUCTION TO ECOLOGICAL ECONOMICS

HEKA22

Jonas Kreutzer

2026-05-06

Learning Objectives

 By the end of today's lecture you should:

1. Be able to outline ecological economics as a field of teaching and research
2. Be able to list different economic fields and analyze the extent to which they represent mainstream thoughts
3. Be able to evaluate different streams within ecological economics regarding their relation to mainstream economics

What is Ecological Economics?

Ecological Economics as the interaction between Ecology and Economics

Ecological Economics Place in Economics

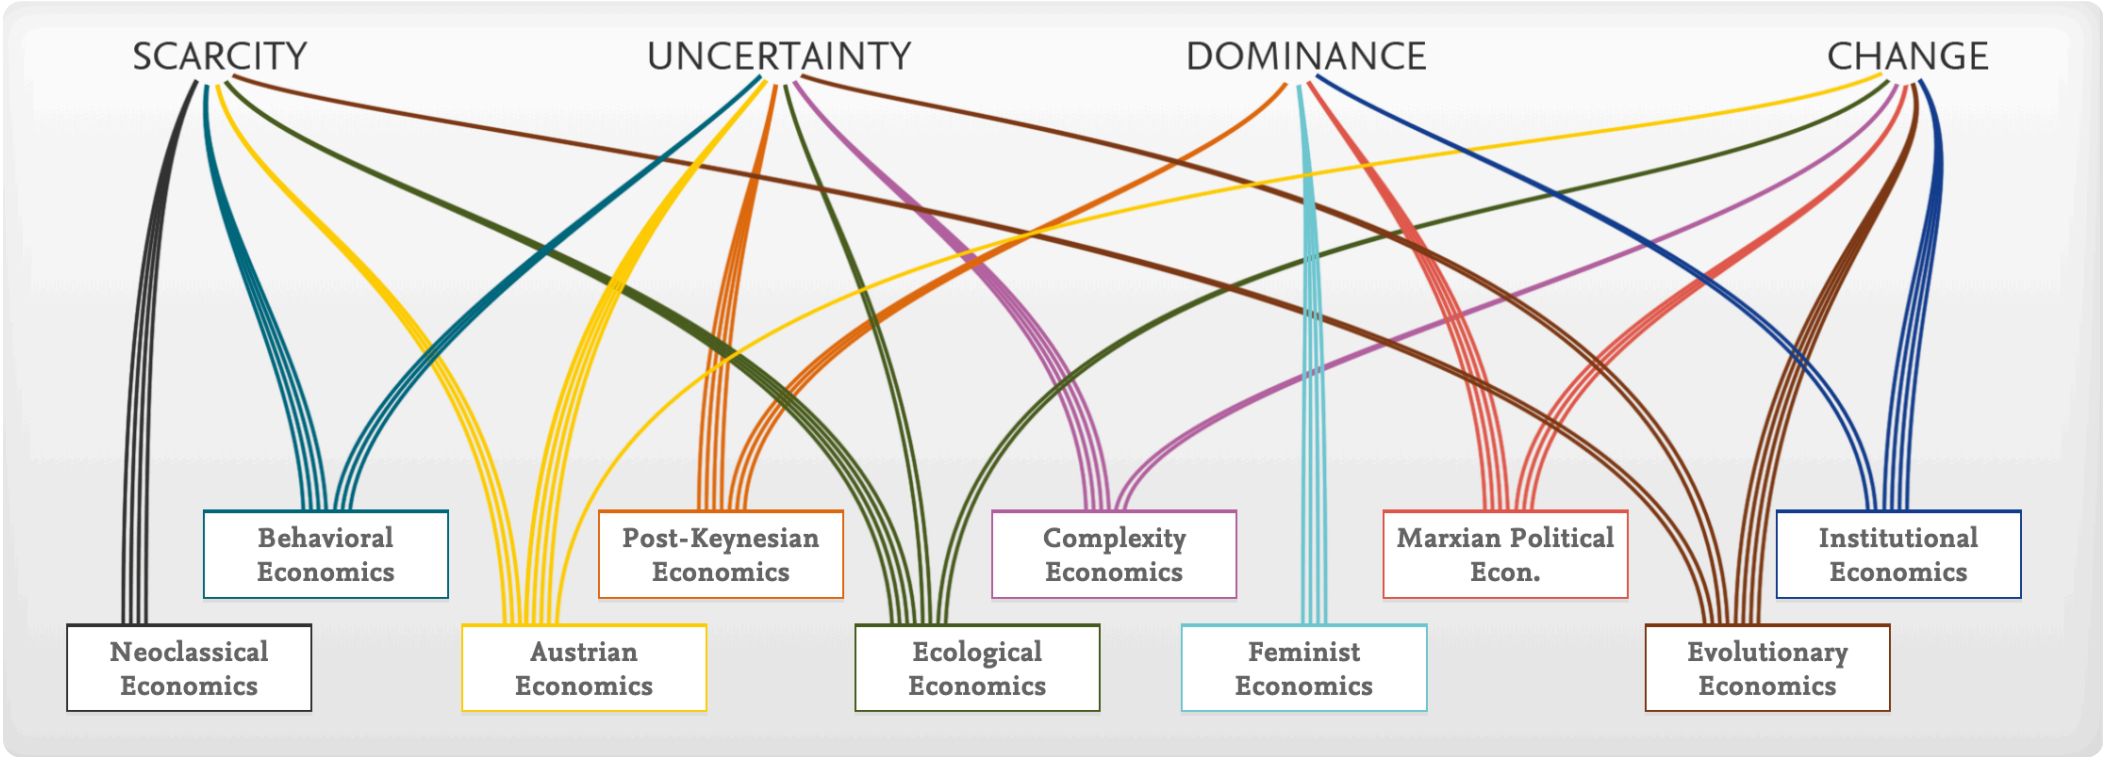

Figure 1: Overview of Economic Subfields from exploring-economics.org

Major Journals

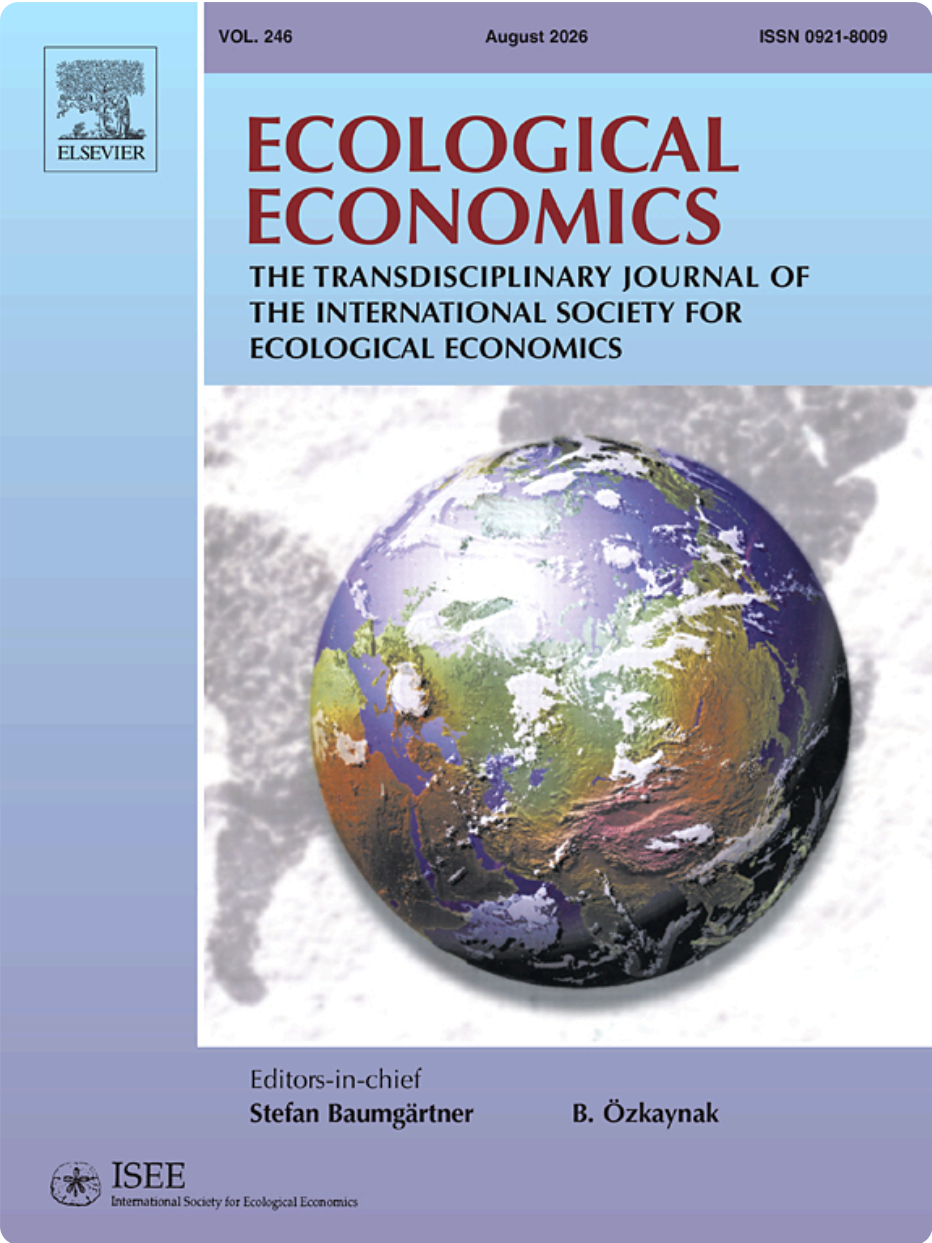

Figure 2: Cover of Ecological Economics

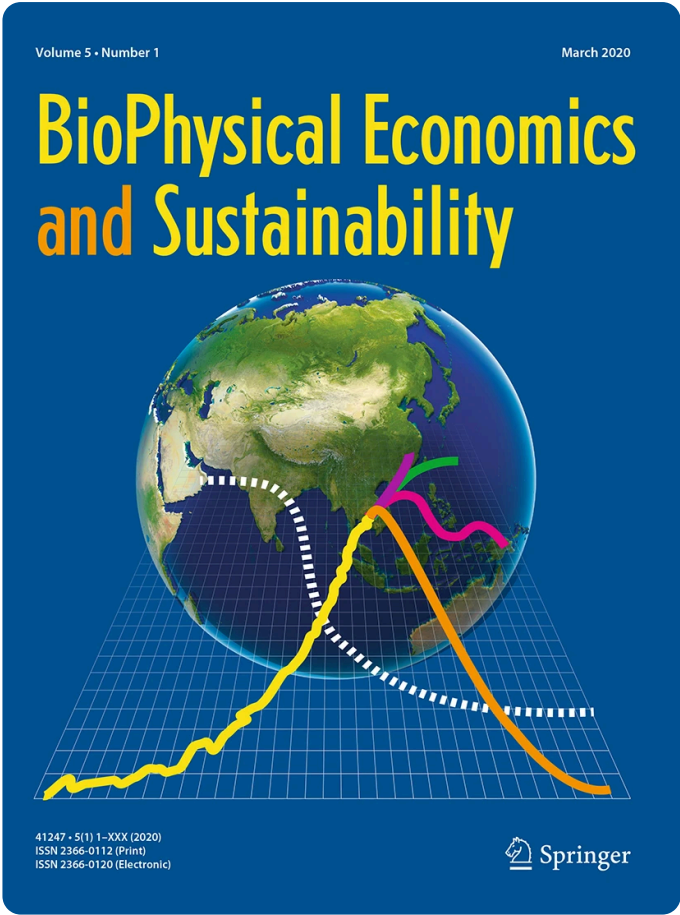

Figure 3: Biophysical Economics and Sustainability

Three different approaches to ecological economics

Three different approaches to ecological economics

The core tension: how do we overcome the mainstream economic paradigm?

Checking-in on Learning Objectives

 By the end of today's lecture you should:

1. Be able to outline ecological economics as a field of teaching and research
2. Be able to list different economic fields and analyze the extent to which they represent mainstream thoughts
3. Be able to evaluate different streams within ecological economics regarding their relation to mainstream economics
